

Angel Rodriguez II

Software Engineer

El Paso, TX — Open to relocating • angeldevelops@gmail.com • github.com/JapaneseGrass • linkedin.com/in/angel-rodriguez-ii

SUMMARY

A multi-faceted thinker and doer who enjoys the process of observation and understanding to develop human-centric solutions that contribute to someone's ability to perform their work in a more fulfilling way. I care about solutions that make sense and can genuinely make a meaningful difference in someone's day-to-day experience.

EXPERIENCE

Wiring Associate, [Schneider Electric](#)

Jul 2026 – Present

El Paso, TX

- Assemble and wire electrical components to engineering specifications, ensuring quality and safety standards are met.
- Read and interpret wiring diagrams and schematics to build reliable, production-ready assemblies.
- Collaborate with the production team to meet daily build targets while maintaining strict quality control.

Seasonal Mountain Park Ranger, [City and County of Denver](#)

Mar 2025 – Feb 2026

Denver, CO

- Patrolled and maintained Denver Mountain Parks, ensuring visitor safety and protection of natural resources.
- Educated park visitors on regulations, trail conditions, and land stewardship.
- Responded to incidents and coordinated with team members across a large, distributed park system.

Software Development Engineer, [Amazon Web Services — HealthAI](#)

Jul 2022 – Apr 2024

Seattle, WA

- Built and operated cloud services on the HealthAI team, initially with Amazon Comprehend Medical and later with AWS HealthOmics.
- Designed, implemented, and tested features for large-scale, HIPAA-eligible services processing health and genomics data.
- Participated in the team's operational excellence practices — code reviews, on-call rotations, and incident response for production services.

Instructional Assistant, Data Structures, [University of Texas at El Paso](#)

Jun 2021 – Aug 2021

El Paso, TX

- Supported instruction for an undergraduate Data Structures course during the summer semester.
- Held office hours and guided students through algorithms, data structures, and debugging their implementations.
- Assisted with grading and provided feedback that helped students strengthen their code quality.

Programming Instructor, [Sylvan Learning](#)

Summer of 2019

El Paso, TX

- Taught an introductory programming course for kids, making coding concepts approachable and fun.
- Adapted lessons to a wide range of ages and skill levels, keeping every student engaged.
- Fostered curiosity and confidence in students writing their first programs.

Cadet, U.S. Army ROTC, [University of Texas at El Paso](#)

Aug 2015 – Aug 2016

El Paso, TX

- Trained in leadership, discipline, and teamwork through the Army ROTC program.
- Completed physical training, field exercises, and military science coursework.

Pastry Shop Assistant

High school summers

San Elizario, TX

- Worked summers at a local pastry shop, assisting with baking, prep, and customer service.
- Learned the value of consistency, early mornings, and taking pride in handmade work.

PROJECTS

Automated Drink Machine — *Raspberry Pi, Python, FastAPI, gpiozero, SQLite*

An 8-pump smart drink dispenser built on a Raspberry Pi. Assign the bottles you have to each pump in a mobile web app, and it works out every drink it can make from its recipe database — tap one, press pour, and peristaltic pumps driven through relays mix it.

Park Ranger Tools — *Python, SQLite, WSGI, openpyxl, Render*

A full-stack truck inspection app for park rangers. Rangers log in, photograph their truck, record fuel levels, and complete inspection checklists with issue escalation; supervisors review submissions, track compliance metrics, and export the full archive to Excel with embedded photo evidence.

MyGarage — *React Native, Expo, Supabase, TypeScript*

A vehicle maintenance software solution for tracking vehicles and staying on top of upkeep.

Personal Website — *Astro, TypeScript, CSS*

A fast, accessible portfolio built with Astro — content-driven, dark-mode aware, and deployed automatically to GitHub Pages.

SKILLS

Languages: TypeScript, JavaScript, Python, Go, SQL

Frontend: React, Astro, Next.js, HTML & CSS, Tailwind

Backend: Node.js, PostgreSQL, REST APIs, GraphQL, Redis

Tooling & Cloud: Git, Docker, AWS, CI/CD, Vitest / Jest

EDUCATION

University of Texas at El Paso

May 2022

Bachelor of Science in Computer Science, Minor in Commercial Music — GPA 3.55 / 4.00
